PROFILE SUMMARY

React.js Frontend Developer with 6 months of experience building production-ready web applications. Skilled in full-stack React development using Redux Toolkit, Appwrite, and React Hook Form. Focused on writing clean, scalable, and maintainable code. Passionate about creating smooth and user-friendly web experiences.

EDUCATION

- **2018 - 2021**
Jawaharlal Nehru Govt. Degree College, Barwaha
Bachelor of Commerce (Plain)
- **2016-2017**
Class - XII
Maths & Science

EXPERIENCE

Frontend Developer Intern

Alphawizz Technologies Pvt. Ltd., Indore (Aug 2025 – March 2026)

- Improved page load performance by 25% across 3+ client projects by lazy loading components and optimizing re-renders.
- Reduced UI bugs by fixing layout inconsistencies across 10+ live projects.
- Developed reusable components that reduced development time by 30%.
- Contributed to multiple live client projects involving website UI development, admin panels, and user panels.

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+)
- **Frameworks:** React.js, Redux (RTK)
- **Backend:** Appwrite (Authentication, Database, File Storage)
- **Styling:** Bootstrap, Responsive Design, Swiper.js
- **Tools:** Git, GitHub, Vite, FileZilla
- **Others:** REST APIs, Context API, React Router DOM

PROJECTS

Mindful Pages — Full Stack Blog Platform [View](#) [Git Hub](#) Tech Stack: React.js, Redux Toolkit, Appwrite, React Hook Form, TinyMCE, React Router DOM, Bootstrap, Vite

- Built a full-stack blog platform with complete user authentication — signup, login, session management, and protected routes using Appwrite Auth.
- Implemented full CRUD for blog posts — create, edit, and delete with featured image upload and rich text content using TinyMCE editor.
- Managed global authentication state using Redux Toolkit with protected route guards that redirect based on login status.
- Integrated Appwrite Storage for image uploads with linked database references, and Appwrite Database for structured post management with query filtering.
- Built reusable components (AuthLayout, Loader, PostCard, TextEditor) with clean separation of concerns across service, store, component, and page layers.

LANGUAGES

- **Hindi:** Fluent
- **English:** Professional Working Proficiency
